LED Panel: Hg Free

Mercury (Hg) is poisonous, producing toxic environmental waste. Unlike the CCFL backlight in traditional monitors, the LED backlight panel contains no Hg.

IPS panel for wide viewing angle and good image performance

- Wide View** – No changes in brightness or color from any viewing angle.
- Real Color** – Consistent, uniform color at all points on the screen.
- Solid Panel** – No trails, puddling or flashing from touching the screen.

World's Highest Dynamic Contrast Ratio (DCR)

Ultra-high Dynamic Contrast Ratio of 50,000,000:1 displays darker images with more depth and detail.

Off Timer

To save power, a timer can be set to automatically turn off the monitor after a user-defined interval.

Multimedia-Ready with 2 x HDMI & Audio Inputs

2 x HDMI as well as traditional analog video and audio inputs combine with built-in stereo speakers for instant entertainment. HDMI (High-Definition Multimedia Interface) is the digital video and sound standard for connecting the latest consumer electronics like Blu-ray players and game consoles.

e-Saver

Software enables the user to set low power configuration of monitor when PC is in screen saving, PC off, and user absence. User can choose the time to turn the monitor off, to save power consumption.

Touch Key

Elegant soft-touch illuminated controls and a colorful graphic OSD menu make display adjustment more user-friendly.

Eco Mode

Hotkey adjustment of display settings suit 5 different viewing styles: Text, Internet, Game, Movie and Sport.

i-Menu

Included PC software allows the user to change the OSD settings using their mouse.

VESA Wall Mount with Tilt functionality

Most competitors offer slim models that can not wall-mount. However AOC 53 series not only is wall-mountable to save desk space, but also retains tilting functionality to meet the standard viewing ergonomics.

Screen+

Screen+ software is a desktop screen splitting tool, it splits the desktop into different panes, each pane displays a different window. You only need to drag the window to a corresponding pane, when you want to access it. It supports multiple monitor display to make your task easier.

Metallic Finish

Clear Vision

The image performance engine can upscale Standard Definition (SD) sources to High Definition (HD) for sharper, more vivid viewing.

Specifications

	i2353Ph
Screen Size	23"W
Brightness	250 cd/m ²
Contrast Ratio (typical)	50,000,000:1 (DCR)
Response Time (typical)	5ms (GTG)
Viewing Angle	178/178
Recommended Resolution	1920×1080@60Hz
Display Colours	16.7M
Input Signal	Analog RGB and HDMI*2
Power Consumption	Power On: <38W (Typical), Standby: <0.5W
OSD Languages	16 Languages
Speakers	2W×2
