LED Panel: Hg Free

Mercury (Hg) is poisonous, producing toxic environmental waste. Unlike the CCFL backlight in traditional monitors, the LED backlight panel contains no Hg.

Ultra Low Power Consumption

The LED backlight panel requires 50% less energy than typical 4CCFL monitors.

Hair-Line Texture

Brushed surface texture provides a luxury look and feel.

Dynamic Contrast Ratio (DCR)

Ultra-high Dynamic Contrast Ratio of 20,000,000:1 displays darker images with more depth and detail.

Eco Mode

Hotkey adjustment of display settings suit 5 different viewing styles: Text, Internet, Game, Movie and Sport.

Off Timer

To save power, a timer can be set to automatically turn off the monitor after a user-defined interval.

Protective Glass

A hard glass panel protects the screen from potential damage. The removable design avoids manufacturing difficulties with trapped dust and humidity, and makes cleaning easy.

e-Saver

Software enables the user to set a low power configuration of the monitor when the PC is in screen saving, PC off, and user absence. User can choose the time to turn the monitor off, to save power consumption.

i-Menu

Included PC software allows the user to change the OSD settings using their mouse.

Screen+ Software

The bundled Screen+ software splits the PC workspace into four self-contained panes to group application windows for easier viewing. Screen+ also supports multiple monitors.
