VIDEO WALL SIGNAGE

D LINE

Features

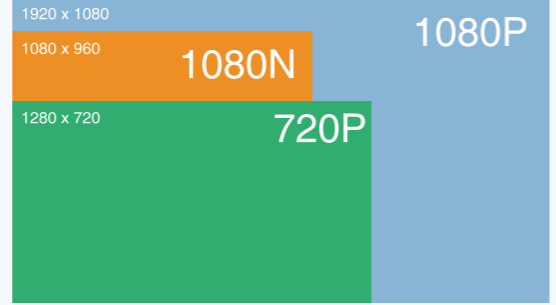

Wider Viewing Angles and Better Color Accuracy

IPS panels deliver vivid and natural color transitions at a wide angle for extra comfortable viewing.

FHD High Quality Viewing

Full HD resolution (1920 x 1080) has become the industry standard for what constitutes good picture and video quality.

4-sided Narrow Bezel Design

With narrow bezels on all 4 sides, the signage delivers an immersive and seamless viewing experience.

Bezel to Bezel 3.5mm

Built for 24/7 Continuous and Reliable Use

Present vivid images and clear messaging in public environments with 24/7 reliability and stability.

Portrait and Landscape Orientation

Enjoy the flexibility to swap between orientations while tailoring the screen setup to your venue, audience and style.

Convenience and Connectivity in One

The monitor is equipped with the most common and convenient connectivity ports such as HDMI and USB 3.0.

SmartPlayer Allows USB Content Plug and Play

Turn your USB into an efficient digital signage device. Simply your content on your USB and plug into the display - no external player necessary.
