50 M

Proven and tested to last for much longer than the average mouse; a must for gaming devices where clicks-per-minute can be a deciding factor in competition.

OMRON 50 MILLION CLICKS LIFESPAN

4 RGB LIGHTING EFFECTS

Flash your team colors or light up your gaming setup via the device's various built-in lighting effect options.
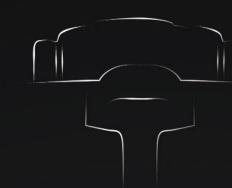

DPI SHIFT

Adjust your mouse sensitivity in either direction with ease outside of the game via a few simple clicks.

EXCLUSIVE SOFTWARE

Use AOC G-Tools to program macros and execute complex commands or a series of actions, configure RGB light settings and buttons, and manage your user profiles.
